

Find 3600+ airport lounges in 1800+ airports worldwide

Who We Are

TravelMint is a digital platform designed to help travelers quickly find, review, and access airport lounges around the world. Built for frequent flyers, business travelers, and vacationers alike, TravelMint offers a smarter, real-time way to discover the perfect lounge for any journey.

What We Do

TravelMint's proprietary Lounge Review System delivers peer-powered insights based on five essential pillars:

- Comfort & Atmosphere – Seating, ambiance, noise levels
- Food & Beverage – Quality, selection, presentation
- Amenities & Facilities – Wi-Fi, showers, nap pods, power
- Service & Staff – Efficiency, hospitality, multilingual support
- Value for Money – Access pricing vs. experience quality

The platform features real-time ratings, mobile optimization, and a clean, intuitive interface for fast decisions on the go.

Why TravelMint Now?

When a beloved lounge app disappeared after an acquisition, TravelMint was born to fill the void with transparency, trust, and taste. Founder David Ciccarelli, a frequent traveler himself, built the platform to reflect real-world experiences—whether perfecting a pitch deck en route to Silicon Valley or savoring a family pre-flight popcorn moment.
